

I believe that the K-Love radio station in my community has been a very good thing. It has given people some positive outlooks to life in the midst of all the bad that is going on in the world today. To replace it with something else would be a devastating blow to those of us who look forward to listening to K-Love each and every day. Please reconsider your decision in this matter for it would be a very sad day for a lot of people who have come to rely on K-Love as their stronghold in this chaotic world. Thank you for this opportunity to make my feelings heard.
